

Company Profile

Who is Takriti Group? ...

Takriti Group is resident in Amman Jordan. Working for both Jordan and neighboring markets, and consist of the following main companies:

Company Profile

TAKRITI EST. FOR ELECTRICAL AND INDUSTRIAL SUPPLIES: (Amman-Jordan, since 1983).

Established by **Bashar Takriti** since 1983 and began the work in Jordan concentrating on power and control products, **Takriti Est.** started with **Merlin Gerin** and **Telemecanique** which are known now as **SCHNEIDER ELECTRIC**.

From that time till today, **Takriti Est.** established very good relations in the Jordanian market and the worldwide market through strong relations with the international leader companies in Power & Control field.

Since 2007 , **Takriti Est.** started a new ambitious stage in the business world especially for Jordanian market when **CHINT** choose us as a SOLE AUTHORIZED DISTRBUTER in Jordanian Market after more than 6 months of studying, searching, asking, and choosing the most capable one in the market.

Company Profile

BASHAR TAKRITI EST. FOR ELECTRICAL AND INDUSTRIAL SUPPLIES:

(Amman, Sahab Free zone-Jordan, since 2001)

With the good facilities given by our governments for the free zone, this company became specialized in stocking the requirements of the **Takriti Group** products used for the Jordanian market and other neighboring countries like Iraq, Syria, KSA and Gulf Countries .. etc.

Available storage area for stocking items with delayed local customs or sales tax until the date of project implementation or transfer of ownership whenever project exemptions are required to sell from stock to neighboring countries besides the availability of fabrication are for projects intended for Jordan without involvement in customs or sales tax for those intended as manufactured for outside the kingdom where no need to consider any customs or sales tax.

This facility makes it easy to the Takriti group to participate in tenders, where most of tenders are customs exempted.

SCOPE OF WORK

Our scope of work covers the Engineering, manufacturing, installation, testing commissioning and supply of different types of electrical panels' equipments and electrical systems covering but not limited to the following:

- Supply of power distribution panels' equipments for residential, building and infrastructure up to 6300A.
- Supply of motor control centers panels' equipments for conventional starting or soft starters and for variable speed drives.
- Supply of power factor correction panel's equipments.
- Supply of automation and SCADA systems' solutions.
- Tendering for both governmental and private sectors.

We have good history with the leading international companies like **SCHNEIDER**, **LOVATO**, **CHINT** and many other electrical engineering companies in this field, which gave us the support and courage to participate in different types of power and control projects. We believe in quality work based on international engineering standards and with the latest type of products and electrical engineering technology, for which we have decided to implement different types of procedures to insure the best quality.

STORAGE AREAS

With good financial capabilities, variety and good space for stocking especially in free zone area in "Sahab" industrial area, which is very close to Amman city, we were able to handle many big tenders and projects for Jordan and neighboring countries.

Our stocking areas listed as below:

1. Showroom and offices in Amman-Wadi Saqra.
2. Storage area in Amman-Wadi Saqra.
3. Storage area in Sahab, free zone.
